## Busbars, Conductors, Copper Contacts and Connections

Here at PRV Engineering Ltd, we manufacture High Quality, High Precision Busbars, Conductors, Copper Contacts and Connections for many Industries. All made from C101 Electrical Grade Copper, we manufacture from the simplest straight Busbars to more complex Forged and Manipulated products.

Cast or Forged Copper Connections part or fully machined to your requirements can be produced and finished as required. Tin or Silver Plated with Electrical Slewing applied should you wish. Below is just a selection of some of the parts manufactured by PRV. Please contact Mr Simon K Jones on (t)01495 769697 (f)01495 769776 or email [skjones@prv-engineering.co.uk](mailto:skjones@prv-engineering.co.uk) for further information.

Almost any shape can be produced with special tooling on our range of Hydraulic Presses from 30 Tons up to 500 Tons
